Considerations for prospective bidders

- Generally, we will require 7 day/week operations, however some locations may be allowed to operate on a reduced schedule, in keeping with our desire to attract small businesses.
- Recognizing the sensitive natural and cultural settings within our parks, environmentally friendly packaging, containers, and utensils will be required at these locations, with severe restrictions on single-use plastic items. There will be a rubbish collection requirement as well.
- Winning vendors will be required to be a part of the park management team, providing park information and reporting rules violations, etc.
- Please note that not all of these park locations will necessarily be offered, due to a variety of factors. Some offerings may be delayed due to park construction projects, etc.
